Release Artist

Edson Byer> Launched his producer career in 2000. His tracks flow in na atmospheric body, deep and dark, with an emblematic underground Techno attitude.

In his discography, the albums such as Fator de Flutuação, Em Casa and Manifesto Subjetivo, released independently, as well as the tracks A New Force (vol. 1), Art (vol. 3) and Siga-me (vol. 4), released on the B.E.C. (Brazilian Electronic Community) label.

In his production process observation, reflection, capturing and being captured by contemporary trends are part of researches and experimentations of technological subtleness, which intone different textures in his timbres. His influences are also in his several collaborations, such as the project Rebel's K, with DJ and producer Maicon Villa, and Max Underson. Edson Byer is one of the creators of an electronic producers collective called CAS (Canibais da América do Sul).

In each track, Edson Byer tries to express himself lively like a movie without image managed by binary machines, but keeping the sensibility and open for a ride in new territories in a constant try of reinventing the existing techno patterns. A timeless reinvention.
